ALLOWANCE

1. This action is in response to the Remarks and Amended Claims filed on July 23, 2007, in which Applicant canceled claim 7 and amended claims 1, 3 and 6.

Claim Rejections – 35 USC § 112

2. Examiner withdraws this rejection based on Applicant's amendment of claims 1, 3 and 6 for which support can be found in the specification and cancellation of claim 7.

Reasons for Allowance

3. The following is an Examiner's statement of reasons for allowance: the elected invention is free of the prior art and the form of the application is acceptable. The closest prior art is Lau, WO 96/40664, which teaches a very similar process for making N-(2,6-dimethyl-phenyl)-2-piperazin-1-yl-acetamide. The difference between the process of the reference and the instant process is that a) the use of an equimolar amount of hydrochloric acid with regard to the piperazine in the instant claims and none in the reference, b) the use of a 10-fold excess of piperazine in the reference and a 1- to 6-fold excess in the instant claims c) the use of an organic solvent in the reference and an aqueous solvent in the instant claims and d) the method of isolating the product.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
